Truth & Knowledge vs. Lies & Deception

Truth see also Deceived, Knowledge

Greek Aletheia (225) Truth, true that which exists and cannot change

First Use: Genesis 24:27 And he (Abraham's servant) said, Blessed be the LORD God of my master Abraham, who hath not left destitute my master of His mercy and His truth: I being in the way, the LORD led me to the house of my masters brethren.

Malachi 3:6 For I am the LORD, I change not;

John 6:68 Then Simon Peter answered Him, Lord, to whom shall we go? Thou hast the words (truth) of eternal life.

Truth is that which exists and cannot change. The truth is the unchangeable fact. There are basic truths in existence. We exist in physical human form on a planet called the earth. It is an undeniable unchangeable truth that we exist. It is also an undeniable unchangeable truth that physical life exists temporarily here on earth. The truth is that all who have lived in the past have suffered physical death; they are no longer physically alive with us on earth. Since there are truths in existence there is a truth that explains life and death here on earth. There can be many theories about how life originated on earth, why and how we exist and why we die, but there is only one unchangeable truth.

John 8:31-32 Then said Jesus to those Jews which believed on Him, If ye continue in My word (Bible), then are ye My disciples indeed; And ye shall know the truth and the truth shall make you free.

Evolution is a fantasy about how life came into existence. Evolution claims that everything that exists now came from nothing. But the truth is if you have nothing, you have nothing and nothing will come from nothing. Evolution claims that change in circumstances makes for changes in life. Oops, First they say that life came from non-life; the truth is if you have no life then there is no life and no life will come from it. They then say that life once it sprang into existence can now change and adapt. First it took millions of years for life to adapt and for humans to figure out to grow thumbs. Now evolutionist say it actually took billions and billions of years for life to spring and for our thumbs to grow. Oops, now evolutionists say that it might have taken millions or billions of years they don't know but they think they are sure that we got our thumbs from space aliens. Space aliens who themselves sprang into existence from nothing. As long as the explanations and stories change they are not the truth. The truth is we are here and we do exist and only one truth will explain the truth of our existence.
